

Terrific Tendon and Fantastic Fascia: from mechanobiology to rehabilitation

Multiscale imaging of tendon extracellular matrix

- Dr Ann Harvey
- Schools of Medicine, Biosciences, and Dentistry, Cardiff University

Cell organisation and interactions in developing tendons

- Dr Jim Ralphs
- School of Biosciences, Cardiff University

The structure and function of fascia in the musculoskeletal system

- Dr Hannah Shaw
- School of Biosciences, Cardiff University

Mechanobiology: stimuli, microstructure and cell response

- Dr Mark Thompson
- Oxford University

Modifying tendon load through rehabilitation in tendinopathy

- Dr Nicki Phillips
- School of Healthcare Studies, Cardiff University

Wednesday
February 22 2012
1.30 pm – 5:00 pm
Room E1.03
Biosciences Building,
Museum Avenue,
Cardiff University
*Refreshments will be
provided. Please email the
CITER Administrator,
Liz Reyes,
ReyesES@cardiff.ac.uk, to
register your attendance.*
