

Cardiff Institute of Tissue Engineering and Repair

Athrofa Peirianeg ac Adfer Meinwe (CITER)

SEMINAR

Title: Terrific Tendon and
Fantastic Fascia: from
mechanobiology to
rehabilitation

Location: Room E1.03
Biosciences Building,
Museum Avenue, Cardiff
University

Date: Wednesday,
February 22, 2012

Time: 1.30 – 5:00pm followed
by networking and wine

REFRESHMENTS WILL BE PROVIDED
To register your attendance, please email the CITER
Administrator, Liz Reyes ReyesES@cardiff.ac.uk

Programme - 22 February 2012

Session One

Chair: Valerie Sparkes

- 1.30pm 'Multiscale imaging of tendon extracellular matrix'
Dr Ann Harvey, Schools of Medicine, Biosciences and Dentistry, Cardiff University
- 1.50pm 'Cell organisation and interactions in developing tendons'
Dr Jim Ralphs, School of Biosciences, Cardiff University
- 2:10 pm 'The structure and function of fascia in the musculoskeletal system'
Dr Hannah Shaw, School of Biosciences, Cardiff University
- 2.30pm **Refreshments**

Session Two

Chair: Ann Harvey

- 3:00 pm 'Tendon mechanobiology: stimuli, microstructure and cell response'
Dr Mark Thompson, Oxford University
- 4:15 pm 'Modifying tendon load through rehabilitation in tendinopathy'
Dr Nicki Phillips, School of Healthcare Studies, Cardiff University
- 4.35 – 6:00 pm **Drinks, Nibbles and Networking**
