

Students can “Impress” at Capital Cardiff

Capital Cardiff is annual event with the aim of connecting the local business community. This year young people are being offered the opportunity to mix with local firms in a **one off challenge to solve a real business problem**.

Employers and entrepreneurs will be on hand to support student development and cast their eye over the next generation of graduate talent.

To enable the student and entrepreneur mix, Student Enterprise Cardiff will be hosting a one off workshop that **will test the aptitude of students in being able to make a difference**. Employers’ desire graduates that are able solve problems, and this workshop will allow students to demonstrate their problem solving and innovative capacity.

We are now looking for capable individuals to represent themselves in a one off challenge.

Do you have what it takes?

[Register](#) or [talk](#) to Neil Coles or Iheanyi Ibe from Cardiff University now.

Wednesday 29th February 2012
14.00 to 16.00
