

October 2017

**To Whom It May Concern**

We attest that the identified translated material is, to the best of our knowledge and belief, a true and accurate translation for the original source document.

We certify that the translation of the Children's Dermatology Life Quality Index (CDLQI) from English for United Kingdom into Taiwanese Chinese (Taiwan) as provided on the Dermatology Department website [www.cardiff.ac.uk/dermatology](http://www.cardiff.ac.uk/dermatology) (click on Quality of Life) is a validated translation. It was translated into the alternate language and independently back translated into English, under the direction of the Cardiff Dermatology Quality of Life Team. Further cycles of forward and back translations were undertaken in response to identified inaccuracies, until the back translation was equivalent to the original English UK version. A final version was then confirmed by the Cardiff Team. All of the translations on our website are validated translations.
