1. Programme Structure (curriculum design, programme structure and level, methods of teaching and learning)

The design and content of the stated programme, aims and learning outcomes are satisfactory. A wide range of topics relevant to the year was covered.

2. Academic Standards (comparability with other UK HEIs, achievement of students, any PSRB requirements)

Academic standards are keeping in line with the level of the award and is comparable to higher education institutions in the UK of which I have experience of.

3. The Assessment Process (enabling achievement of aims and learning outcomes; stretch of assessment; comparability of standards between modules of the same level)

The overall standard of the assessment was good. The assessment process was fair and conducted in line with university regulations. The examiners used the two case reports to explore knowledge and understanding. The students were given every opportunity to excel. The calibration process for the examiners, standard setting and transparency with independent making contributes to quality assurance. The administrative staff were very helpful in ensuring smooth running of the exam.

Suggestions for the future include sending information to external examiners in good time. It would be helpful for the examiners to be conscious of not leading the students unknowingly during the viva examination.

- 4. Examination of Master's Dissertations** (sample of dissertations received, appropriateness of marking schemes, standard of internal marking, classification of awards)

NA

5. Year-on-Year Comments

[Previous External Examiner Reports are available from the Cardiff University Website [here](#).]

The standard setting has been introduced recently and the process is transparent. The internal examiners receive the case reports ahead of the exam which helps with good questioning with an opportunity to explore the candidate's knowledge, rationale for treatment and available evidence.

- 6. Preparation for the role of External Examiner (for new External Examiners only)** (appropriateness of briefing provided by the programme team and supporting information, visits to School, ability to meet with students, arrangements for accessing work to review)

n/a

- 7. Noteworthy Practice and Enhancement** (good and innovative practice in learning, teaching and assessment; opportunities for enhancement of learning opportunities)

Good use of psychometric analysis

The wide range of marks noted with appropriate selection of questions makes it easier to discriminate between the students.

- 8. Appointment Overview (for retiring External Examiners only)** (significant changes in standards, programme/discipline developments, implementation of recommendations, further areas of work)
