We are a Russell Group university

Committed to maintaining the very best research
Striving to create outstanding teaching and learning environments
Offering unrivalled links with business and the public sector
Degrees are recognised worldwide
Teaching by globally respected staff who are pioneers in their subjects
Excellent teaching facilities funded by research grants and contracts

We are a global university, with a focus on research and innovation.

We have a national and international reputation for quality and excellence, ranking highly among the world's top universities.

Our research earns grants and investments totalling tens of millions of pounds and attracts top researchers from around the world.

The quality and impact of Cardiff's research has led to a meteoric rise in the Research Excellence Framework (REF), pushing it into the UK's top 5 universities.

We were also ranked as the 2nd university nationally based on the impact of our research, which tackles major challenges facing society, the economy and the environment. We're part of the elite Russell Group of 24 leading research-intensive UK universities.

Our research staff are world-class and include Nobel Laureates, Fellows of the Royal Society and members of other prestigious institutions.

Our research expertise and facilities are used by industry and commercial partners, government bodies and other organisations internationally. We help to generate business ideas and spin-out companies and contribute to economic growth and job creation in Wales and beyond. Our research contracts have a total value of £500m.

We have created major Research Institutes to pursue new scientific approaches to some of the world's most pressing concerns.

These bring together academic talents from across a range of disciplines to solve problems of global importance.

Spotlight on..

UNIVERSITY MANAGEMENT AND INNOVATION PROGRAMME

We created a 13-week residential training programme to develop knowledge, understanding and skills related to university leadership and management in the UK.

We worked with the China Scholarship Council, who sent a total of 194 delegates on this programme between 2016 and 2018.

The aim was to assist the development of the university sector in China. Particular focus was on innovation practice in UK higher education, within the context of teaching, research and engagement activity.

Delivered by Cardiff Business School, the programme also included significant input from senior Professional Services staff and academics to showcase the breadth of innovation taking place throughout the University.

The programme also included meetings with senior staff, tours of departments, English language sessions, visits and networking events.

WHAT OUR DELEGATES SAY:

What impact has your learning and your experience on the programme had on your team/department?

“

I will show our college management what I have learnt and seen at Cardiff University, such as the professionalism of the professional service staff and organisational structure, which are all inspirational to how we can improve our service quality and team structures.

”

2018 PROGRAMME

Professional training for international businesses

We help organisations access high quality, relevant and specific training programmes, designed to develop your workforce.

As a truly international university, we understand the challenges and opportunities that globalisation brings.

We know that working collaboratively to share knowledge is the key to success and sustainability.

We have developed many partnerships and strategic relationships around the world, and we have a thriving international community, with over 7,900 students and 25% of our academic staff choosing Cardiff for study, research or work.

As globalisation increases, training and re-training staff is likely to become even more vital; at Cardiff University, we are experienced in supporting organisations to develop and

deliver courses for global challenges – the opportunities of AI and big data, how to develop the next generation of teachers and technology leaders, the future of our cities or tackling the health inequalities and identifying the causes of disease.

Our Continuing Professional Development (CPD) Unit provides a dedicated service to help you access the right training for your organisation; we will listen and work in partnership with you, from identification of your training requirement, through to course design, delivery and beyond.

Working in partnership with us ensures you have the best opportunity to engage with the university in all that it offers.

Our training programmes are gaining momentum all over the world amongst a wide

variety of organisations. Whether it is a week-long customised programme delivered here in Cardiff, a short course delivered in your country, or a long-term, residential professional development activity, we have the experience to develop and deliver quality learning solutions.

Our service spans the full range of requirements from initial proposal discussions through to meticulous planning of the delivery of your training.

This includes offering advice and services relating to accommodation – private residences or University residences, transportation from airport, visits to businesses/organisations to enhance the learning experience, cultural activities and student support.

“Our international community contributes enormously to the success of the University and the city of Cardiff. This diversity fosters creativity and innovation, and is an important part of our culture.”

Professor Colin Riordan
PRESIDENT AND VICE-CHANCELLOR
OF CARDIFF UNIVERSITY

We offer programmes in a wide variety of subjects:

Big data, AI, Data Innovation

Cyber security
Big data
Data science
Catalysis
Compound semiconductor electronics
Photonics
Chemical safety
Blockchain

Education and Teaching

Innovative teaching and pedagogical practices
Professional development for archaeologists (classroom and lab work)
Conservation including care of museum or heritage collections
Teaching of music

Business and Leadership

Government and public policy leadership
Public sector leadership and management

Smart logistics for supply chain
Fintech
Leadership and management within educational institutions
Embedding innovation
Corporate and financial governance
Supply chain management
Communication across cultures
Leadership and management
Digital leadership
Operations management
High performing teams
HR and performance management
Finance management
Strategic management

Architecture, Engineering, Urban Design and Planning

Energy management
Building and infrastructure
Information modelling (BIM)

Smart cities
Low carbon design & architecture
Structural geology
Sustainable transport
Transport analysis
Eco-city planning & development
Governance of eco-city development
Sustainable food systems
Renewable energy development & planning

Media, Communication, Journalism

Media training and relations
Public relations (PR)
Digital and social media
Digital marketing
Copywriting & business writing
SEO
Google Ads, Google Analytics

Our Success Stories

DESCRIBING AND CLASSIFYING DEFORMED ROCKS

Client: Mount Isa Mines
Duration: ½ day workshop (a related online course in structural geology is also now available - check our website for details)
Trainees: 14 mining geologists working at Mount Isa Mines in Australia

Professor Tom Blenkinsop, from Cardiff School of Earth & Ocean Sciences, specialises in structural geology for exploration and mining.

The workshop he delivered explored the possible controls on the ore bodies at Mount Isa, one of the company's mining sites and which is the home of Australia's second largest producing copper mine as well as one of the largest silver-lead-zinc deposits in the world.

The workshop addressed both brittle and ductile deformed rocks, deformation mechanisms and crustal structure.

INNOVATIVE TEACHING PRACTICE

Client: Guizhou University
Duration: 4 months
Trainees: 10 delegates

Academics from Guizhou University arrived in Cardiff in September 2018 to undertake this programme.

The programme consisted of different elements, including teaching sessions from the School of Social Sciences, lecture observations within the delegates' own teaching discipline, English Language support and cultural excursions.

The programme was a great success with 100% of the feedback given by the delegates rating the programme as having a high impact.

Guizhou University were very pleased with the programme and in Autumn 2019 they sent another 16 delegates from a range of arts, humanities, social sciences, and engineering backgrounds.

INTRODUCTION TO DERMOSCOPY

Client: Open programme, available worldwide
Duration: 12 weeks, fully online
Trainees: Doctors involved in the care of dermatology patients with skin lesions

Dermoscopy is a non-invasive, widely used diagnostic tool that aids the diagnosis of skin lesions, proven to increase the accuracy of melanoma diagnosis.

Cardiff University run this highly successful online course twice annually.

The course has been developed by leading dermatologists in the field of dermoscopy. Participants complete a new topic every 2 weeks, followed by an assessment.

The course is available worldwide; our last course included delegates in over 11 countries. We consistently receive excellent feedback and demand for course is continually oversubscribed.

Plans are underway for further dermoscopy short courses to satisfy a demand for Cardiff University expertise in this field.

WHAT OUR DELEGATES SAY:

“

Emmajane Milton has made the biggest difference to my thinking about learning and teaching..because she let me think deeply about the purpose of higher education and how to encourage students engage in learning.

”

Delegate feedback

2018-19 GUIZHOU UNIVERSITY PROGRAMME

“

...the course connects me with specialists and other colleagues worldwide. By using a web-based platform, the course creates a flexible learning method even during busy practice. Students can get involved in discussions by using computers or smartphones. ...In the live discussion forum, students can communicate with experts directly.

”

Dr Tong Man-Chiu, Hong Kong

2018 DERMOSCOPY PROGRAMME

Cardiff, capital city of Wales

All the culture, sports, shops, entertainment, work opportunities and atmosphere you would expect of a modern European metropolis.

7 facts about Cardiff

- Cardiff is a safe city** with a population of around 350,000 people. It was one of the UK's first multi-cultural cities and an estimated 94 languages are spoken here.
- Cardiff has a buzzing arts and events scene**, being home to the Welsh National Opera, Roald Dahl, the Wales Millennium Centre and innovative Chapter Arts Centre. The iconic Principality Stadium hosts international sport and music events from the UEFA Champions League Final to concerts by global stars such as Ed Sheeran and Beyonce.
- The National Museum Cardiff** contains one of the best impressionist art collections outside Paris, including works by Monet, Renoir and Van Gogh.
- The city has recently been named the 6th best for shopping** in the UK, with beautiful Edwardian and Victorian arcades and modern shopping centres with designer brands and unique independent shops.
- Over 330 parks and gardens** make Cardiff one of the greenest cities in the UK, with the 130 acre Bute Park located right next to our campus.
- With excellent transport links** to the rest of the UK and an international airport on our doorstep, Europe and beyond is just a short journey away.
- Cardiff's ever growing food scene** features international cuisines from Thailand to Mexico and beyond. International supermarkets also make it easy for you to find the ingredients you use at home!
