Due to the ongoing COVID-19 pandemic, some of our teaching, learning, research and services may need to change at short notice to ensure we fully adhere to the relevant government guidance. Please consult our website for details on how any changes may affect your studies in the 2021-22 academic year.

The distinctiveness of this School lies in a combination of a strong tradition of architectural education, an international reputation for research excellence, a highly diverse community of staff and students and our location in Cardiff – a gateway to the stunning Welsh landscape.

Cardiff is an affordable and friendly capital city, offering easy access to other cities in the UK, as to Europe and beyond. It also offers diverse physical, social and cultural contexts that we can explore in our teaching and research.

Disclaimer:

This brochure will provide you with more details of our programmes. We hope that they will give you more than just a flavour of what we have to offer you. However, we are always ready to answer any questions you may have, by post, telephone or email, or when you come to Cardiff for a visit. You will find the appropriate contacts at the end of this brochure.

Important Legal Information

The contents of this brochure relate to the Entry 2020 admissions cycle and are correct at the time of going to press in October 2020. However, there is a lengthy period of time between printing this brochure and applications being made to, and processed by us, so please check our website [www.cardiff.ac.uk] before making an application in case there are any changes to the course you are interested in or to other facilities and services described here. Where there is a difference between the contents of this brochure and our website, the contents of the website take precedence and represent the basis on which we intend to deliver our services to you.

Any offer of a place to study at Cardiff University is subject to terms and conditions, which can be found on our website [www.cardiff.ac.uk/offerterms] and which you are advised to read before making an application. The terms and conditions set out, for example, when we might make changes to your chosen course or to student regulations. It is therefore important you read them, and understand them.

If you are not able to access information online please contact us:

Email: enquiry@cardiff.ac.uk

Telephone: +44 (0)29 2087 4455

Your degree: Students admitted to Cardiff University study for a Cardiff University degree.

Welcome

Architecture is a fulfilling and creative pursuit. As a practice, it offers the opportunity to make the world a better place in countless ways as to have long-lasting impacts on the built environment. As a field of study at university, architecture offers the significant benefit of breadth.

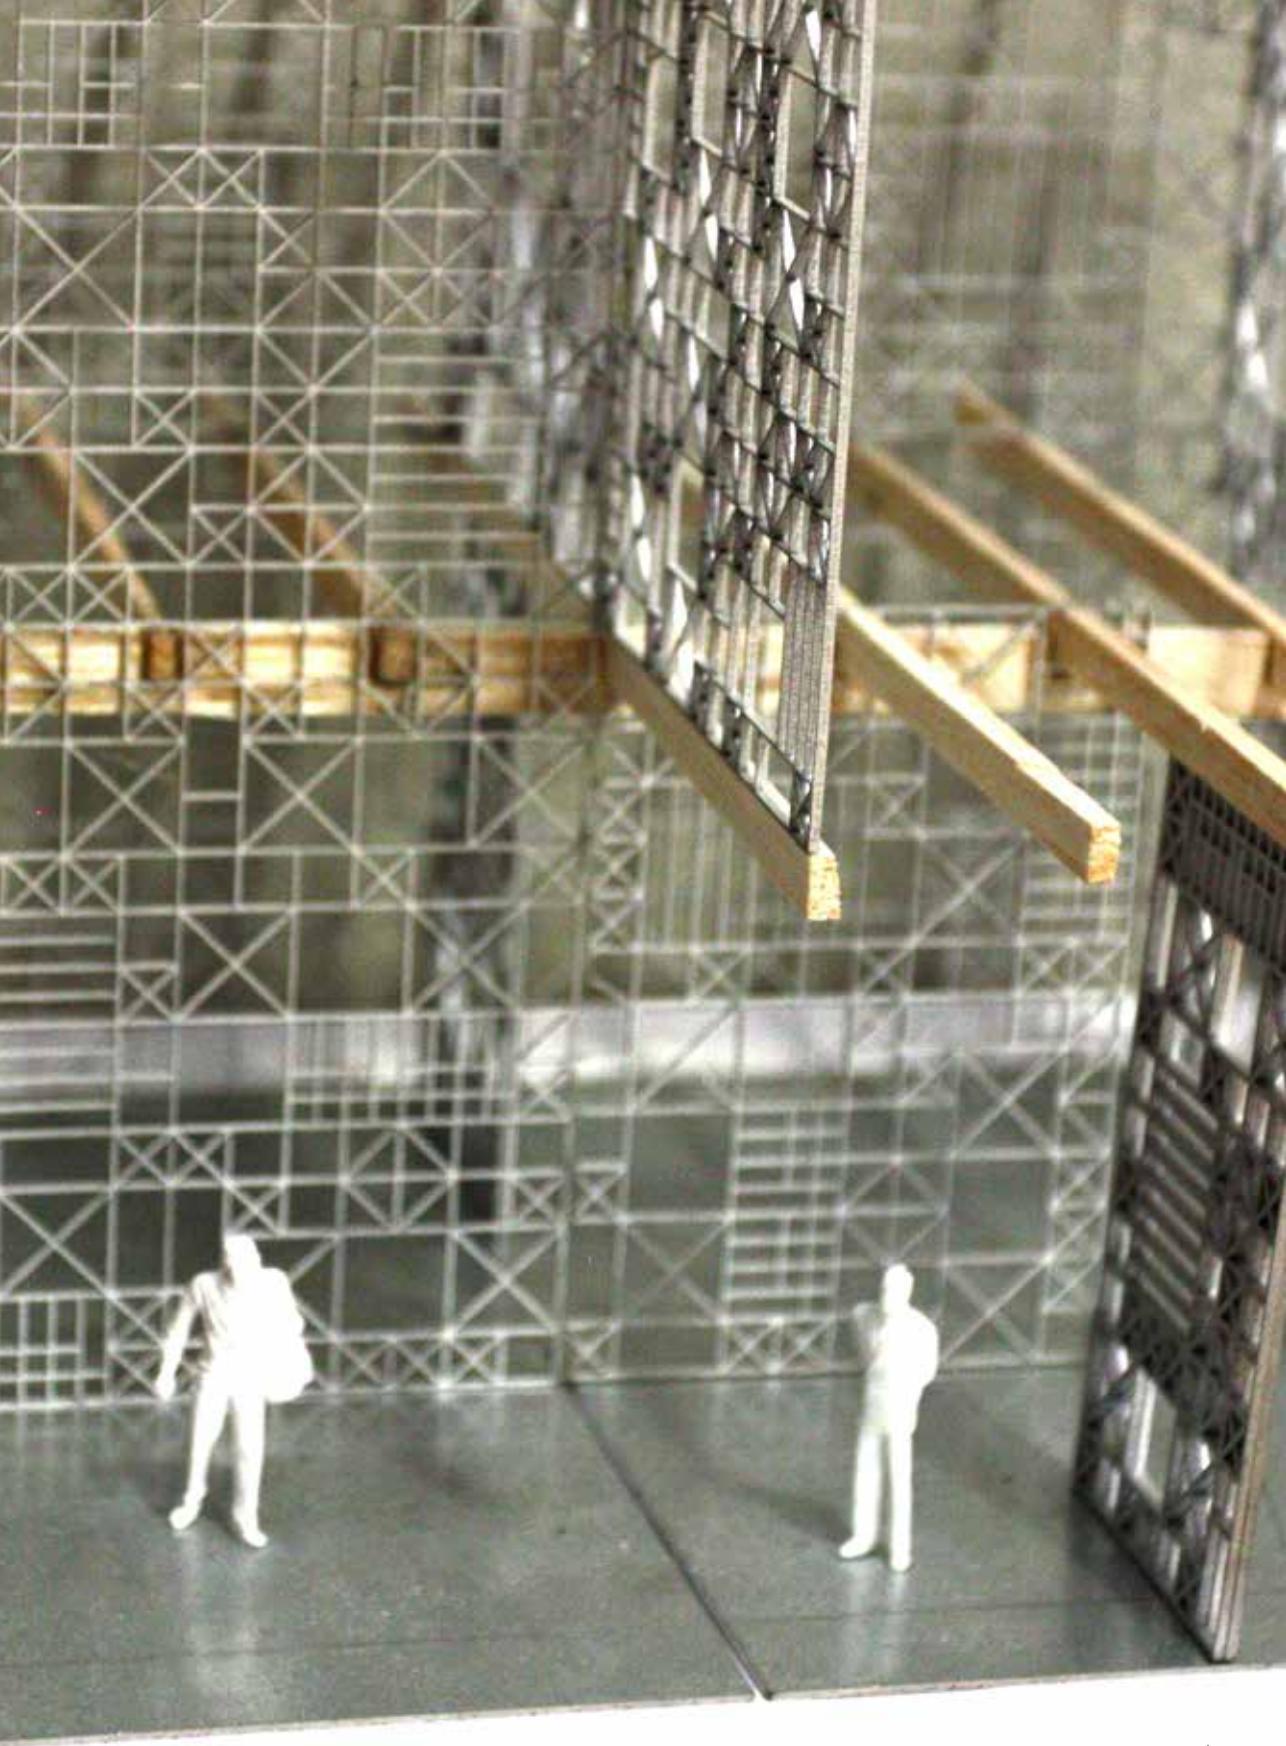

countless ways as to have long-lasting impacts on the built environment. As a field of study at university, architecture offers the significant benefit of breadth.

As designing buildings involves a wide knowledge base, so architectural studies incorporate elements of the arts, humanities, STEM (Science, technology, engineering, and mathematics), and social sciences, with design often involving the creative synthesis of diverse sorts of information, understanding, context, established principles and ideas. An architectural education also develops skills in research, in formulating arguments, in defending ideas, and in aspects of professionalism and management.

At the Welsh School of Architecture, our undergraduate programmes foster the development of critical, informed, reflective and creative approaches to design. Our teaching is research-led, benefitting from the expertise of scholars who are experts in their fields and a highly diverse research base. The school has been educating architects for over a hundred years and prides itself in producing graduates who demonstrate imagination and creativity but who are also well prepared for the challenges and opportunities of practice.

While our knowledge base is broad, our endeavours are linked by a passion for architecture that enhances people's lives while also safeguarding the planet for future generations, and for addressing the major challenges of sustainable development in our times.

Dr Juliet Davis
Head of School

Introducing the Welsh School of Architecture

The Welsh School of Architecture is located at the heart of Cardiff's Edwardian civic centre of buildings, close to the city centre and just over a mile from Cardiff Bay, one of Europe's major dockland redevelopments.

Established in 1920, we have a history of attracting undergraduate and graduate students from around the world who benefit from the unique experience of studying and living in the vibrant capital city of Wales.

We have productive research links with practice, industry and with universities in many other countries, and see our contribution to the cultural life of Wales, and to the dynamic city of Cardiff, as a significant part of our identity.

The distinctiveness of this School lies in its tradition of combining creativity with a focus on making, its research portfolio, the calibre of its staff and in its unique location, a gateway to the stunning landscape of Wales. We're not London, we're Cardiff, and that gives us easy access to diverse physical, social and cultural contexts we can explore in our teaching and research.

Studying with us is not an easy option. We set high standards for students and staff and expect great things from them. But we stand by the quality of our graduates and are proud of what they achieve. You will find them working around the world, and prospective employers keep coming back for more. That's the greatest reward for us.

"Our time at the Welsh School of Architecture has been incredible. You can expect plenty of thrilling site visits, and new, extraordinary friendships with people from all over the world."

Joe Dare | BSc Architecture

Undergraduate programmes

- Study in one of the top-ranked schools of architecture in the UK
- Accredited by the Royal Institute of British Architects (RIBA) and the Architects' Registration Board (ARB)
- Opportunities to experience historical and contemporary precedent spaces, places and buildings through both physical and virtual tours
- Design-led programme with a focus on making – two thirds of our BSc is currently based on project work in the studio
- Our MArch includes a full year spent in paid employment in an architectural practice placement organised by the student

We offer the full range of qualifications needed to become a registered architect in the United Kingdom. Our BSc Architectural Studies (Part 1), Master of Architecture (MArch, Part 2), and Postgraduate Diploma in Architecture: Professional Practice (Part 3) are accredited by the Royal Institute of British Architects (RIBA) and the Architects' Registration Board (ARB).

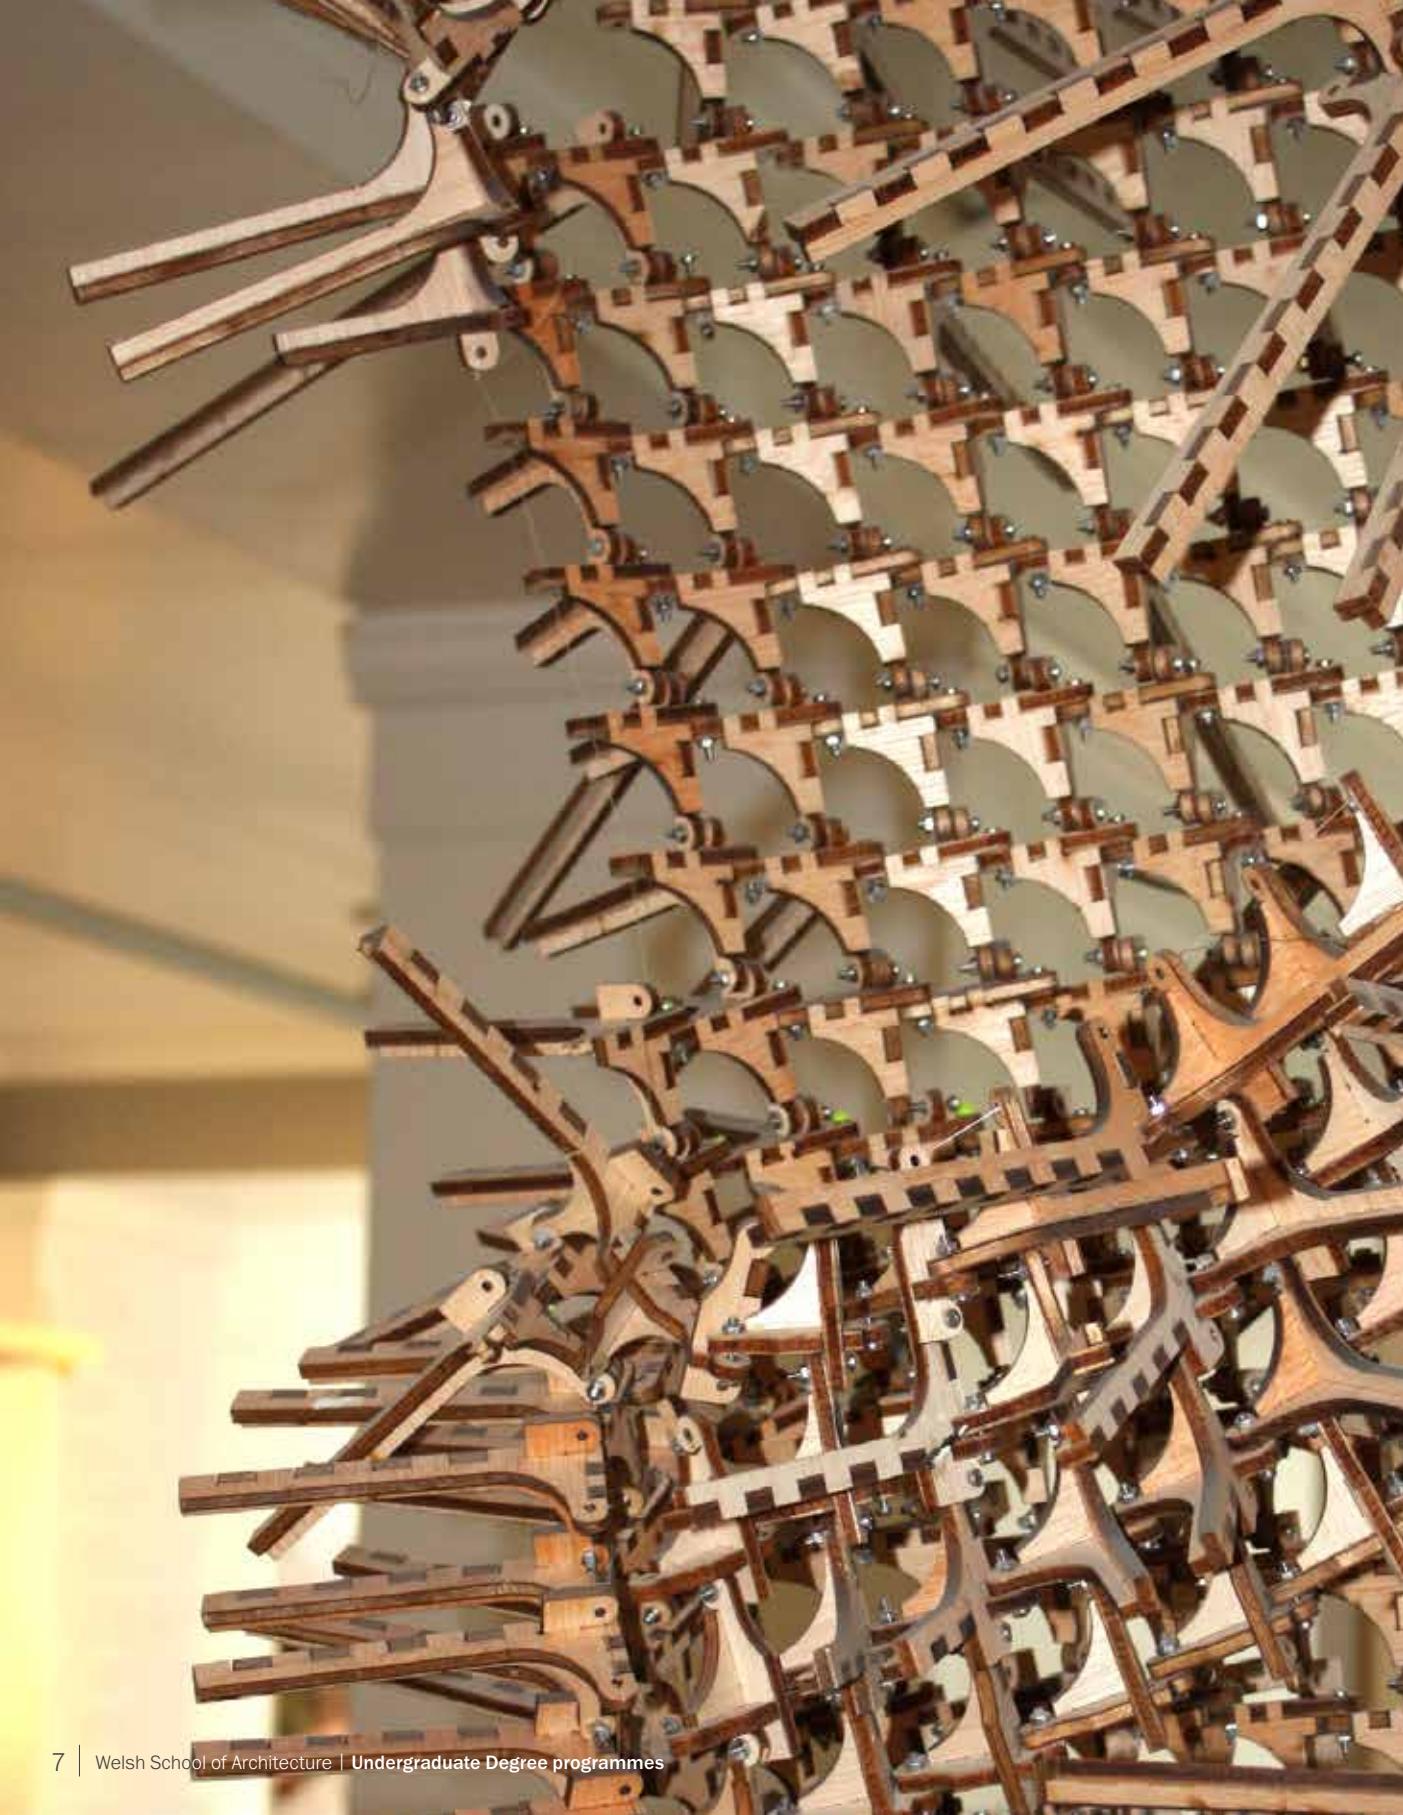

We produce graduates who can address the diverse demands of practice. We encourage a holistic, integrated approach to design, based on a thorough understanding of how buildings are made, how they are used and their impact on the wider world, including cultural, social and physical contexts.

The majority of our graduates proceed to a career in architectural practice, and can be found in many eminent practices in the UK and across the world. Whilst most of our students go on to become architects, those who do not are prepared for careers in a variety of other creative, entrepreneurial and managerial fields because of the skills they acquire through their studies.

Undergraduate Programme	Graduate Programme	Postgraduate Programme	
BSc Architectural Studies	Master of Architecture (MArch)		PG Diploma in Architecture: Professional Practice
PART 1	PART 2		PART 3
Year 1	Year 2	Year 3	Year 4

BSc Architectural Studies

The BSc in Architectural Studies is a three-year undergraduate degree course. It satisfies Part 1 of the UK professional qualification for architects and is accredited by RIBA and ARB.

On enrolment, the school will provide all first year students with a kit including tools and equipment we consider to be essential to you as you embark on your architectural education. You are also provided with a copy of the architectural student handbook 'Studio Craft and Techniques for Architects' by Miriam Delaney and Anne Gorman.

Year one is intended to build your design skills whilst fostering individual creativity. A range of projects will focus on aspects of making, generation of ideas and response to both urban and rural contexts. During this year students will often participate in a Vertical Studio project, (see page 11 for information) as well as opportunities to experience historical and contemporary works of architecture through both physical and virtual tours.

In **year two**, we focus on developing your understanding of domestic and medium sized buildings and skills in the prediction of building performance combined with technical imagination. You will often participate in another Vertical Studio project, as well as the opportunity to do a study visit to a European city.

In **year three** you will be offered a range of thematic studio units to work in for the year. You will work on one particular proposal or theme throughout the year and develop it from initial investigative and propositional work at the scale of the urban block or neighbourhood, to a subsequent close focus on a particular moderately complex building. You will also participate in a study visit which will allow you to reflect on your unit in an international context.

Master of Architecture (MArch)

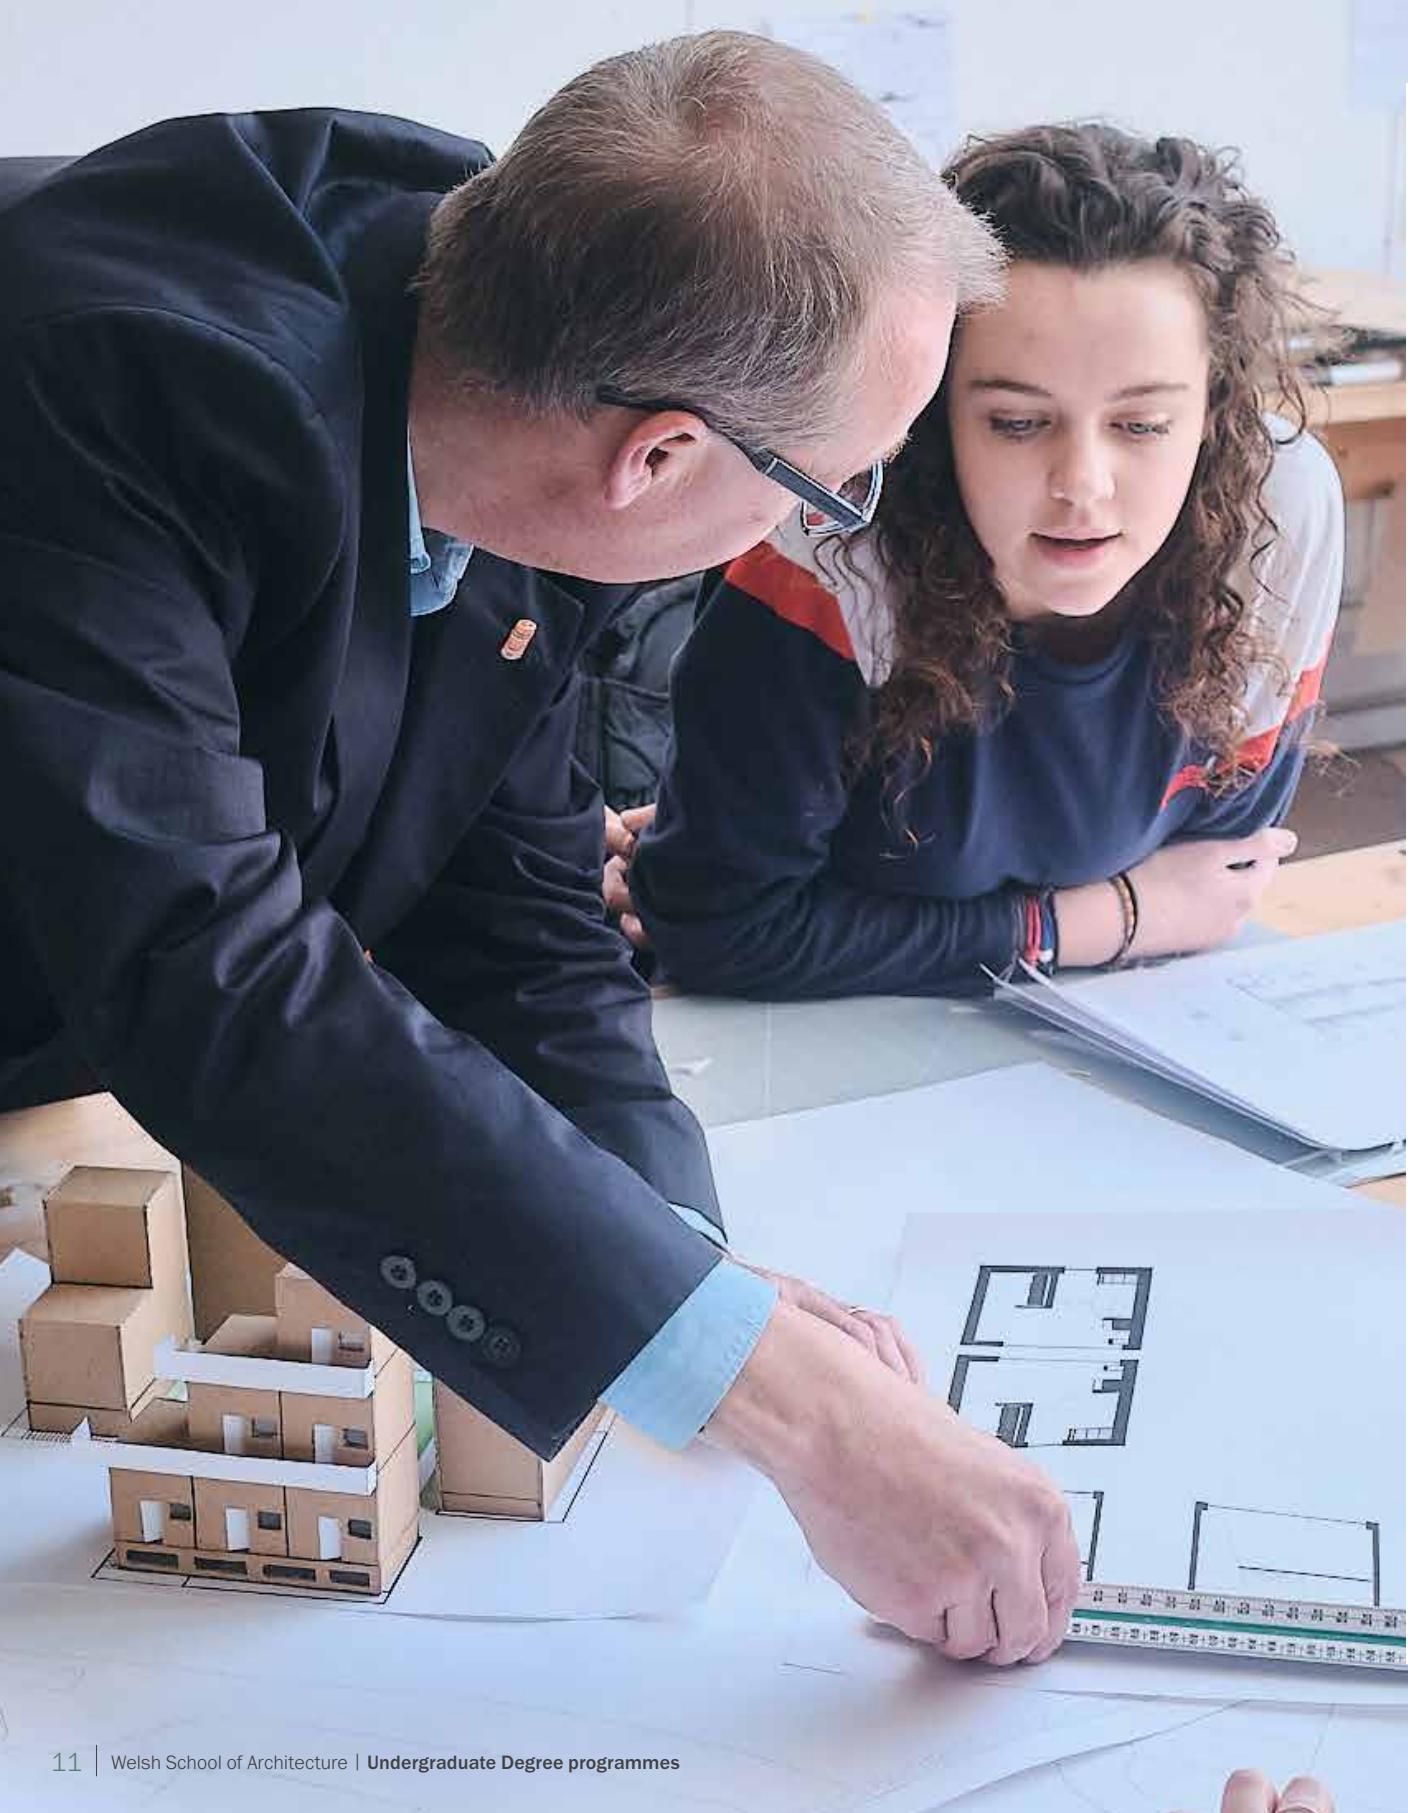

The MArch is a unique two-year degree scheme, taken after the BSc (or equivalent qualification from another university). It satisfies Part 2 of the UK professional qualification for architects, and is approved by RIBA and ARB.

In the first year of the MArch — the year of education in practice — you will be based full-time in paid employment in an architectural practice.

Students are expected to find a suitable placement in an architectural practice themselves. Our students have an excellent record in obtaining placements and many of our past graduates have taken the opportunity of the year of education in practice to spend time in practice abroad. We maintain contact with you throughout the year, and you are required to attend three short courses held in the School and complete associated coursework.

Your second year is spent entirely in the School, where you will develop an advanced level of architectural design. It offers an intense and lively forum for the exploration and discussion of contemporary issues in architecture, and includes courses in building economics and professional practice. You will apply your skills and interests to a design thesis and dissertation, with support from internal and external tutors.

Our approach to teaching

After completing a degree with us, we want our students to be independent critical thinkers, equipped with the knowledge to make informed observations on design and architecture and versed in a range of design and building techniques. This is why our approach to teaching is so focused on elements of practice.

We engage external practitioners (many of them are practicing architects) and invite professionals from industry to give talks and lead studio work. This gives students a view of what modern practice is like and what issues are currently facing the industry.

As part of years one and two of the BSc Architectural Studies, our students often participate in Vertical Studio, an opportunity to split into small project groups and experiment with different themes and practical techniques. Past Vertical Studio options have explored themes as varied as refugee housing, 3D representations of crystal structures, and buildings constructed for communities using found materials.

We encourage students to see the bigger picture by looking at the context of design and the environment surrounding them. This is ingrained in regular field trips, both physically and virtually in the UK and further afield, throughout the BSc and MArch. The School will pay for your travel and accommodation on these course-essential field trips.

At the end of each year, we organise a summer exhibition of student work in Cardiff to celebrate their progress. This ensures maximum exposure to potential employers and gives our students a sense of recognition and achievement for all their hard work.

www.wsa-ondisplay.co.uk

Our facilities

In the city centre, nestled between parks and green spaces, stands the Bute Building, home of the Welsh School of Architecture. The majority of our facilities are housed here, including lecture theatres, exhibition galleries, studios and other teaching spaces.

Making is at the heart of the School so we are extensively renovating our beautiful Grade II listed Bute Building to incorporate a wide range of cutting-edge facilities. These will include: a dedicated zone for craft and digital fabrication which includes a robotic arm for students dealing with complex fabrication techniques, brand new design studios providing greater space for collaborative working along with the addition of a hybrid studio and a Living Lab.

We are fortunate to have our own **Architecture Library**, situated alongside the design studios. It has an extensive collection of teaching and research books, subscriptions to over ninety architecture and subject-related journals, a collection of building product manufacturer and suppliers' catalogues, a wide range of databases and an expanding rare books collection. The Library also provides networked computers, a wireless service for laptop users, scanning, printing and photocopying facilities.

The **design studio** is the focus of life in the School, the place for design, discussion, model-making and tuition. All students are encouraged to promote a culture of collaborative learning and mutual criticism of project work. Studios are equipped with configurable furniture, light tables, cutting areas and networked computers all available during extended working hours. Alongside the studio, the School has a dedicated **IT suite** for teaching computer aided design and advanced visualisation techniques.

A **well-equipped workshop** provides tools and expertise necessary for student model making along with a ventilated spray booth, model testing facility and a laser cutter, a robotic arm, 3D printer and CNC router.

SAWSA

Student Association Welsh School of Architecture

Our School community is vibrant, welcoming and diverse and our students are engaged and enthusiastic about design. SAWSA, the Student Association at the Welsh School of Architecture, embodies this.

Every year, SAWSA organises a variety of academic and social events, including a lecture series, creative classes such as life drawing, and a film series. They also organise the annual SAWSA ball. This is a society run by design enthusiasts for design enthusiasts and is a great way to make friends when you begin your course, so make sure you sign up when you enrol.

Living in Cardiff

The City – Cardiff is a thriving and attractive city which is widely recognised as an outstanding place in which to live and study. It combines all the advantages of a compact, friendly and inexpensive location, with the cultural and recreational facilities of a modern capital city.

"CARDIFF SEEMS TO HAVE IT ALL: GRAND CIVIC ARCHITECTURE IN A BREEZY WATERSIDE LOCATION, SUPER-SMART CITY BARS AND VENUES JUST A SHORT HOP FROM LOVELY COUNTRYSIDE."

Guardian University Guide 2016

Cardiff has also won a reputation as a **sporting capital** thanks to the quality of the events and facilities. Whether you want to watch or play, world-class stadiums for rugby, football, cricket and athletics and the International Sports Village, ice rink and Cardiff International White Water Centre are all within easy reach.

When it comes to entertainment, Cardiff is well-equipped to satisfy student needs. There is a multitude of cafes, pubs and nightclubs. The city is home to the world-renowned **Welsh National Opera** and boasts various concert venues such as the **Wales Millennium Centre**, as well as the iconic **Principality (Millennium) Stadium**, the **National Museum Wales**, several theatres and the historic **Cardiff Castle**.

The city is one of the UK's best shopping destinations, with **St David's Dewi Sant retail centre** standing alongside pedestrianised shopping streets, markets, and a fascinating network of glass-canopied Victorian and Edwardian arcades.

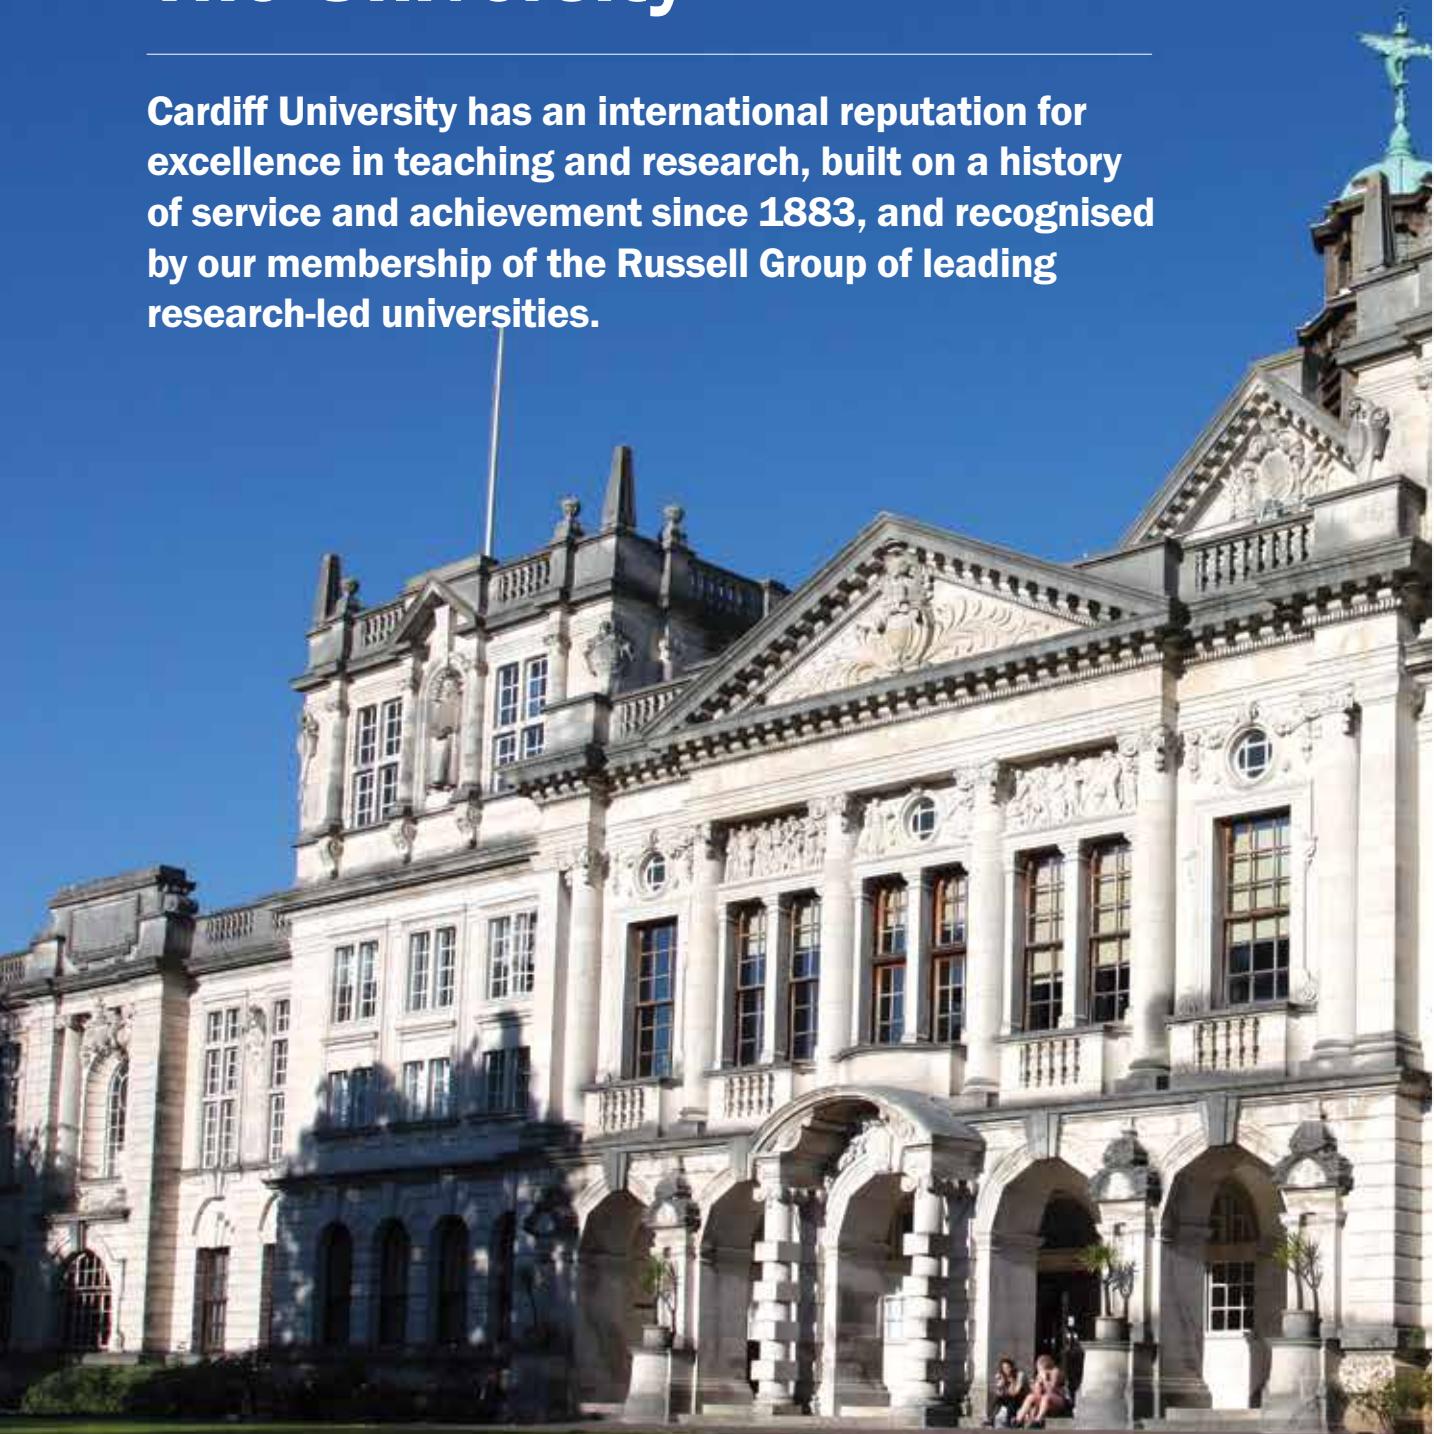

Cardiff also has more urban green space than any other UK city, and offers easy access to the countryside, coast and mountains.

The city benefits from excellent road and rail links with Britain's other major towns and cities. The main coach and railway stations are both centrally placed, and Cardiff also benefits from an international airport.

Lively, elegant, confident, cosmopolitan and ambitious are all words readily used to describe modern-day Cardiff. Together, the city and the University provide students with the 'Cardiff Experience', a lifestyle our students remember long after graduation.

The University

Cardiff University has an international reputation for excellence in teaching and research, built on a history of service and achievement since 1883, and recognised by our membership of the Russell Group of leading research-led universities.

International opportunities for students are available via our Global Opportunity Centre. These include study, work and volunteering placements in 27 EU countries as well as international exchange opportunities. All students also have the opportunity to study a language in addition to their degree through the University's Languages For All programme.

Student life

As a fast developing capital city, Cardiff is a great place to be a student. It's large enough to offer you an exciting variety of activities and entertainment, but small enough for you to feel comfortable in.

"THE UNIVERSITY IS AS CONFIDENT AND FORWARD-LOOKING AS THE CITY IT'S LOCATED IN, AND HAS AN EXCELLENT REPUTATION FOR THE QUALITY OF ITS TEACHING AND RESEARCH."

Guardian University Guide 2016

Accommodation

All undergraduates who accept their offer of a place from Cardiff, on a firm basis, are guaranteed a single occupancy place in University residences during their first year of study.

Please see our website for full details of our accommodation guarantee and associated deadlines:

www.cardiff.ac.uk/residences

The University is continually investing in its student residences, and the views of students are taken into account at the design stage. Unusually for a civic university, most of our residences are within easy walking distance of lecture theatres, libraries, laboratories, the Students' Union and city centre.

Fees depend on the facilities included and whether catered, part-catered or self-catered, but prices compare very favourably with those of other UK universities.

The Students' Union

Cardiff Students' Union is one of the biggest, best and most active in Britain.

Hosting live music, club nights, standup comedy, fashion shows and awards ceremonies, there's lots to keep you entertained from your first day to your last.

The Union is home to a host of other facilities, such as a letting agency and Jobshop, the Union's own student employment service providing casual, clerical and catering jobs around the University.

In addition, it is home to CU TV and Xpress Radio (the students' own TV and radio stations) and more than 200 cultural, political, religious, social, sporting societies and clubs.

Applications

BSc Architectural Studies

UCAS code - K100

Our typical entry requirement for admissions onto the BSc Architectural Studies is AAA/A*AB (A-level) or AAB with an A in an Extended Qualification Project (EPQ).

To be considered for entry, you should apply online via the UCAS website using the 'UCAS Apply' facility. To use this facility, you need to log on to: www.ucas.ac.uk/apply

The website will provide you with information on how to apply and explains the UCAS procedure.

We require all candidates to submit an 8-page A4 digital portfolio: this must be submitted as a PDF document which is no more than 10MB in size. Following submission of the UCAS form, applicants will be contacted by the University to upload a portfolio. It is recommended that you do so within two weeks. An application will not be considered until we have received both the UCAS form and the portfolio. An application will be rejected automatically if we do not receive a portfolio within 6 weeks.

The portfolio need not be architectural in any way and may include drawing, painting, sculpture, photography, graphics, product design or any other work in visual design. You can include as many images as you wish, but please ensure that these are clearly defined and are of sufficiently high quality to do justice to your work.

Where a portfolio is of exceptionally high quality, lower academic qualifications may be acceptable. Mature students who do not have these or equivalent qualifications, but who have strong motivation and relevant skills and experience, should contact us to discuss the possibility of being admitted.

Master of Architecture (MArch)

We invite graduates from other universities who have at least a 2:1 RIBA accredited Part I degree (or exempted) with a strong design portfolio to apply to our MArch programme. We will consider those with a 2:2 degree who have exceptionally strong grades in design modules at degree level.

Graduates from our own BSc programme with a 2:1 degree receive an automatic offer to continue onto the MArch programme. Those with at least a 2:2 degree may still apply, and their application will be considered based on their overall academic qualifications and portfolio.

For entry directly to the MArch degree, please go to: www.cardiff.ac.uk/architecture/courses/undergraduate/master-of-architecture

Equal Opportunities

Cardiff University is committed to promoting equality and diversity in all of its practices and activities, including those relating to student recruitment, selection and admission.

The University aims to establish an inclusive culture which welcomes and ensures equality of opportunity for applicants of all ages, ethnicities, disabilities, family structures, genders, nationalities, sexual orientations, races, religious or other beliefs, and socioeconomic backgrounds.

This commitment forms part of the Equality and Diversity Policy which is available at: www.cardiff.ac.uk/public-information/equality-and-diversity

Applicants with Disabilities/ Specific Needs

All offers to study at Cardiff University are made solely on the basis of academic merit.

Where applicants have specific requirements that relate to a disability or medical condition, they are encouraged to discuss these with relevant staff in order that appropriate arrangements can be made to ensure the University provides an accessible environment. Specifically, applicants are invited to contact the Disability Adviser who can provide information about the applications procedure, course delivery and access to the physical environment. Where appropriate, informal visits can be arranged in which applicants can view accommodation and meet academic staff.

For further information please contact the Disability Adviser:

Tel: +44 (0)29 2087 4844

Email: disability@cardiff.ac.uk

Open Day

University-wide Open Days are held throughout the year and provide the opportunity to visit all Schools in addition to residences, the Students' Union and sports facilities.

For further information please visit our website at: www.cardiff.ac.uk/opendays

Deferred Entry

The School has no objection to the possibility of deferred entry provided the intervening year is spent in a positive and worthwhile way. Application is made through UCAS in the usual way, although the UCAS application must show the deferred year of entry.

Admissions Contacts
