

Statements summarising impact feedback received from a cohort of pupils who have participated in the LSC/HGB quiz.

(A) How did the LSC/HGB influence your A-Level choices?

- Helped me to realise that medicine was my passion.
- Learning about the wide variety of topics in the science subjects interested me and influenced me to take Science A-Levels (Biology and Chemistry).

(B) Please describe any benefits/impact that taking part in the LSC/HGB has had on you?

- Improved my general scientific knowledge.
- Helped to develop my interest in sciences.
- Taught teamwork and discussion skills.
- Useful to use competition in applications e.g., Sixth Form.
- Showed how we could apply the knowledge learned in school.
- Drove me to take part in more science competitions.
- Increased interest in the life sciences and how it applies in life that continued from GCSE to A-Levels and onto university.
- Provided an opportunity to learn about university research.
- Competition helped with exams.
