### 1. Programme Structure

The structure of the programme is sound and has proved to be a popular route for working educational psychologists to enhance their practice through doctoral level study leading to a doctoral award.

### 2. Academic Standards

The academic standards set by the university and programme staff are in line with national bench marks and also in line with the standards set at other HEIs offering this type of award with which I am familiar.

### 3. The Assessment Process

I was able to review the work of six students. I set aside time to meet with any of the current students either in person or by telephone. I did not speak with anybody.

### 4. Year-on-Year Comments

I understand that the university no longer admits students to this course. Again other HEIs are closing courses of this type as the numbers of existing educational psychologists wishing to take the opportunity of following this type of study are diminishing.

## **5. Preparation / Induction Activity (for new External Examiners only)**

## **6. Noteworthy Practice and Enhancement**

The course team are active in supporting the current student to complete their studies in a timely fashion, while acknowledging the multiple stressors that exist for mature students.

## **7. Appointment Overview (for retiring External Examiners only)**

This has been a successful course, and the numbers of students enrolled will diminish, I have no doubt that the course team will give all the necessary support to enable these students to finish their studies with success.
