Process note

Approval of Expression of Interest forms

Version: 001

Last updated: 3rd July 2019

Drafted by Clare Anderson

Expression of interest forms (EOIs) are required for each new study at CUBRIC. The information within it helps the CUBRIC Operational Team gauge the amount of resources you require, which enables us to ensure you receive a high level of support whilst carrying out your research here. The points below provide further information as to the decision-making process whilst assessing the EOIs.

1. In cases where no discount is requested, EOIs can be approved by the relevant Lab Manager, the Compute and Data Manager and the Centre Manager.
2. For those requesting a discount (regardless of amount), EOIs are sent to the Head of Modality to consider and approve in addition to the Centre Manager, Compute and Data Manager and relevant Lab Manager.
3. In special circumstances, or unique cases, the Head of Modality may choose to table it at the CUBRIC Management Team meeting in order to reach a decision.
4. Please refer to the Discount policy if applicable.
