

Campus life

You will be based on either our Cathays Campus (in the city centre) or, our Heath Campus, for most health-related courses (just one mile out from the city centre).

www.cardiff.ac.uk/for/prospective/campus-life.html

Accommodation

All accommodation is single-room dormitories in shared flats or houses, and is guaranteed for the duration of your studies. We have lots of options available, nearly all within easy walking distance of your academic School and the city centre.

Student Support

We appreciate that leaving home to study in a different country can be very daunting. However, help and support is available for you throughout your time with us. This starts in mid-September when we provide a coach collection service from Heathrow and Cardiff airports over two days, which brings you directly to campus, then on to your accommodation.

From then onwards, free and confidential advice is available including: Counselling Services, Mental Health Advisor, Disability and Dyslexia Service, Finance & Money Management, Visa renewals, Immigration issues, Job Shop, advice on paid work, representation and support with academic issues.

Postgraduates also have their own, dedicated university-wide facility (one of only a few in the UK), offering additional resources of space, study and social facilities, as well as workshops and events for students.

www.cardiff.ac.uk/studentssupport

Students' Union

Each university in the UK has a Students' Union. These are run by students (elected officers) and provide services for all students. Cardiff's Students' Union is rated 5th in the UK and offers an exciting programme of entertainment, diverse clubs & societies and a comprehensive range of welfare, advice & information services – all aspects of student life within a purpose-built complex. Whatever your hobby or sport, there's bound to be a society or club for you – or why not try something new?!

Cardiff University, UK

Information for students from Canada

Why study in the UK?

Graduate sooner

Undergraduate level – the standard degree length is 3 years & you can specialise in your subject from day one. (Courses including work/study placements, or leading to professional qualifications, can take longer.)

Graduate level – nearly all Masters degrees are just one year. No GRE or LNAT required.

Professional Recognition

Many degrees in professional subjects, such as Law and health-related courses, are recognised in Canada (you may be required to take some exams upon your return).

Improve your employment prospects

Employers across the globe are increasingly looking for graduates with international experience.

Gateway to Europe

With excellent transport links, you can make the most of your time in the UK by exploring continental Europe.

Why Cardiff University?

Ranked **5th in the UK** for our research.

A member of the prestigious **Russell Group** of research-led UK Universities.

Traditional university (**established in 1883**) with state-of-the-art courses and facilities.

Internationally recognised, **career-focussed degrees**, many professionally accredited.

Study Abroad options available – one semester or a year.

Our graduates are some of the most **sought-after by employers** in the UK.

The **capital of Wales**, Cardiff is a vibrant, cosmopolitan city with all facilities (shops, entertainment, sports, arts etc.) of a major city, whilst being small, safe and very friendly.

What can I study?

With 27 academic Schools, Cardiff offers a huge number of study options.

“The city centre and university campus are so close to each other making Cardiff very metropolitan. There are lots of wonderful things to do and it's really easy to fit everything into my schedule”

Ayah Aboukoura,
Pharmacy

Types of Programmes Available

The most popular include:

Study Abroad (JYA) - for one or two semesters

Cardiff's academic system is modular which means you can choose classes from several different subjects & match your degree at home.

www.cardiff.ac.uk/studyabroad
studyabroad@cardiff.ac.uk

Undergraduate

E.g. BA, BSc, BEng (depending on the subject).
Most courses are 3-year Bachelor (Honours) degree programmes, and enable you to specialise in your chosen subject from the very beginning.
Some courses offer the option of a one-year professional work placement.

Graduate (typically referred to as Postgraduate in the UK)

One-year Masters (e.g. MA, MSc). These normally combine a mixture of taught courses and research.

3-year Doctoral research programmes (PhD). These are normally entirely research-based, involving independent study (with supervision).

How to apply

Undergraduate

To apply for undergraduate study in the UK, you must apply through UCAS (Universities And Colleges Admissions Service).

For full details please see www.ucas.com

Postgraduate

To apply to Cardiff's postgraduate programmes, you need to apply online through our own website.

See www.cardiff.ac.uk/apply

For Research degrees, you also apply online as above, but we recommend you visit www.cardiff.ac.uk/pg before doing so.

Academic Requirements

Undergraduate:	Alberta	70-75% average in 5 subjects at Year 12 General High School Diploma level, with at least 75% in any required subjects.
	British Columbia	80% average in 5 subjects at Year 12, with at least 80% in any required subjects or BBBB - AAAAA grades
	Manitoba	Five credits awarded at the 300 Level with at least 80% in four subject areas.
	New Brunswick	80% average in 5 subjects at Year 12, with at least 80% in any required subjects.
	Ontario	75%-80% average in six U,U/C or M subjects at Year 12, with at least 80% in any required subjects.
	Quebec	75% average in DEC/DCS, with at least 75% in any required subjects.

Graduate (Postgraduate, Masters)	A Bachelor degree from a recognised College or University, with a GPA of at least 3.0. Admissions Tutors will pay special attention to key subject classes
---	---

Research (MPhil, PhD)	A Bachelor or Masters degree from a recognised University or College. A minimum GPA of at least 3.0 is usually required, and Admission Tutors will pay special attention to relevant classes taken during the degree. In many cases, you will also be expected to have a research proposal.
------------------------------	---

These are standard/typical requirements. Some courses may accept slightly lower, whereas others will require higher grades - please refer to each programmes' requirements.
