Our Campuses

Established in 1883, Cardiff University boasts an international reputation for excellence in teaching and research, built on a history of service and achievement. Our membership of the 24-strong Russell Group of research-intensive universities solidifies our place as one of the UK’s leading academic institutions.

The University is divided into 24 academic schools, located across two thriving campuses: Cathays Park Campus and Heath Park Campus.

Cathays Park

Just a few minutes’ walk from the city centre, the majority of our academic schools can be found on our Cathays Park Campus, amongst the impressive buildings, parks and wide tree-lined avenues that form Cardiff’s attractive civic centre.

Heath Park

Our Heath Park Campus is home to three academic schools offering programmes in medicine, dentistry* and healthcare sciences. Co-located with the 1,000 bed University Hospital of Wales - the third largest teaching hospital in the UK - our students are immersed in a hospital environment from the beginning of their studies.

*Please note that, due to NHS regulations, we are unable to open the School of Dentistry during weekend events. While visitors may take a general tour of the Heath Park Campus, unfortunately, it will not be possible for guests to visit inside the Dental School on a Saturday. However, a virtual video tour of the School is available in the Centre for Student Life, Cathays Park Campus, along with other activities hosted by the School of Dentistry. Please see page 9 for further information.
