1. Programme Structure

The programme structure is well thought out – the programme is an extremely good one

2. Academic Standards

The standards are high

One of the things that is obvious from the feedback from students is that those involved in the programme model good practice in their delivery of the programme

3. The Assessment Process

The assessment process is robust.

The standard of feedback given to all students is exemplary – I have not seen such a high standard in any programme I have been involved with

The level of concurrence in those pieces of work that are double marked is remarkably high and is a testimony to the rigour that the team apply to the assessment process.

4. Year-on-Year Comments

No new comments to make

5. Preparation / Induction Activity (for new External Examiners only)

N/A

6. Noteworthy Practice and Enhancement

The degree to which the team delivering this programme undertake review of the programme is worthy of comment. They evaluate individual modules as well as the overall programme – and it is obvious that this evaluation is reviewed and appropriate action taken. While it was a very positive experience to have an opportunity to meet one of the students (who gave a very glowing report of all aspects of her experience) to have such full feedback on all aspects of the programme gives a much fuller overview. It should be said that the overall the feedback from the evaluation was extremely positive.

I have commented in this report and in many previous reports about the quantity and quality of feedback given on students' work. That is also noteworthy

7. Appointment Overview (for retiring External Examiners only)

This is an outstanding programme.

It is obvious in reviewing the design and delivery over the past years that the team delivering it are utterly committed to producing a high quality experience and qualification. The evidence is of a programme that has been refined and honed.

The team are to be highly commended for their knowledge, commitment, enthusiasm and the final product.
