

New hidradenitis suppurativa study (THESEUS Study)

If you are a patient who has HS and you are interested in taking part in the THESEUS study please read the information below.

Eligibility to take part:

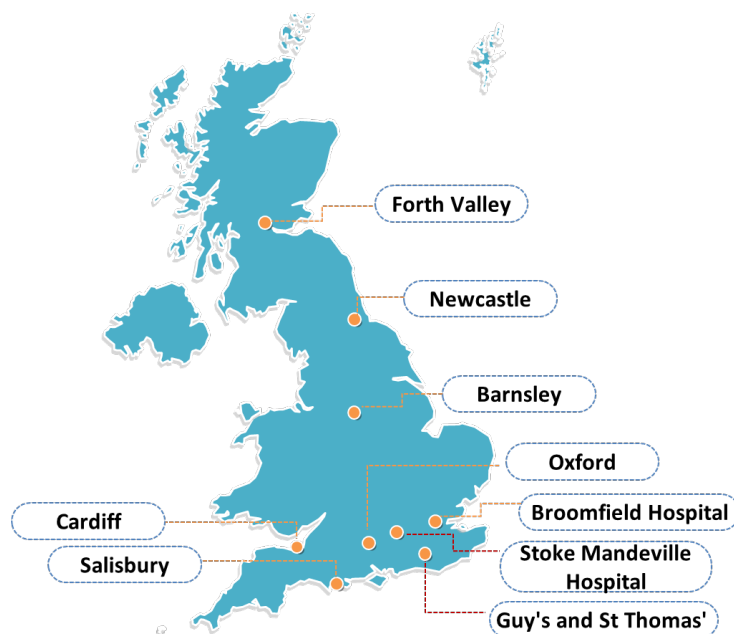

You may be eligible to take part in the THESEUS study if you are at least 18 years of age and have a diagnosis of active HS which is not controlled by your current treatment. You would not be eligible to take part if you are pregnant or breast feeding or if you are unable to provide your informed consent.

Hospitals/Trusts taking part in the THESEUS study:

The below list of sites and map indicates which hospital sites are involved in the THESEUS study. If you are close to one of these hospitals (your GP uses the hospital for referrals) and are interested in taking part in the study, please use the details provided for each site below to make contact. If you live in England and your usual hospital is not currently taking part in the study, you may be able to take part at a participating site that is closest to you. Please contact that site directly to enquire as to whether you are able to take part. If you choose to take part at another hospital, unfortunately, the study is not able to reimburse your travel costs.

You can obtain further information at THESEUS@cardiff.ac.uk and by visiting our website: <https://www.cardiff.ac.uk/centre-for-trials-research/research/studies-and-trials/view/theseus>
