1. Programme Structure

The programme in its current form has met the needs of community pharmacists wanting to enhance their practice and further develop their roles. In response to changes within the profession and the development of patient facing roles for pharmacists in GP practices the programme team have made the decision to halt the running of this programme in order to restructure the programme to meet the needs of these new roles. This is a positive move and will strengthen the postgraduate programmes at Cardiff.

2. Academic Standards

I reviewed a selection of student work across all the second year modules. The academic standards of this programme are consistent with those in my own institution.

3. The Assessment Process

The programme employed a range of assessment methods including a class test, OSCEs and course work. The course work was highly relevant to the students' practice. There were clear marking schemes and the students were provided with feedback to help them improve their practice and future assessments. I would suggest a review of the marking schemes to ensure that the percentage of marks available for presentation and referencing is consistent across assessments.

I was particularly impressed with the QIPP project and its application to practice.

4. Year-on-Year Comments

The previous external examiner highlighted an issue with negative marking of the MCQ part of the class test. This has now been removed.

5. Preparation / Induction Activity (for new External Examiners only)

I was invited by the University to attend an induction session for new external examiners. I was unable to attend but was sent all of the information and presentations to review. The School provided me with all the information I required. I was impressed with the organisation on the day of my visit and had everything I needed to hand.

6. Noteworthy Practice and Enhancement

The support and feedback given to students is noteworthy, particularly given that the course manager left at the beginning of the year. ■■■ and ■■■ have done an excellent job in maintaining the quality of the student experience.

SAMPLING OF TAUGHT MASTER'S DISSERTATIONS BY EXTERNAL EXAMINERS

External Examiners shall be expected to see prescribed numbers and ranges of Dissertations, but not to mark them, on the following basis:

At least 10% of Dissertations for a postgraduate taught Master's Programme, or a minimum of 10 (whichever is the higher figure) must be seen by the External Examiner(s). Where the total number is less than 10, all Dissertations must be seen by the External Examiner(s) #.

Dissertations seen by External Examiners should include examples from across the whole range of achievement (i.e. Pass with Distinction, Pass, Fail).

External Examiners will retain the right to see other Dissertations at random.

Where more than one External Examiner is appointed on a Programme, at least 10% of Dissertations, or a minimum of 10 (whichever is the higher figure), should be seen collectively by the External Examiners.
