Ysgol Gwyddorau Gofal Iechyd

## **Associate Lecturer Secondment Opportunity**

As part of this continuing scheme we are pleased to offer an exciting part-time secondment opportunity at the Cardiff University, School of Healthcare Sciences, in the following area:-

**Associate Lecturer (Midwifery)  
(Ref 2018/01)**

**Associate Lecturer (Physiotherapy)  
(Ref 2018/02)**

**Associate Lecturer (Adult Nursing)  
(Ref 2018/03)**

The Associate Lecturer roles have been established for two main reasons. The first reason is to provide an opportunity for clinically credible practitioners to contribute to the undergraduate pre-registration education of midwives, nurses and allied professionals. The second reason is to provide applicants with an opportunity to experience working in higher education in a prestigious and world leading university. It is anticipated that applicants will have the opportunity to develop both personally and professionally during the secondment and the School will enjoy closer links with clinical practice and have the opportunity to acquire first-hand knowledge of the impact of national and local health policy and changes in clinical practice.

The roles provide an opportunity to teach, participate in research and undertake scholarly activity. This may include preparing work for publication and conference presentation; learning more about assessment and examinations systems, for example setting and marking examination papers; programme development and administration; participation in committee work; and the pastoral care of students of Cardiff University. Each secondee will be allocated a mentor and the Associate Lecturer/Tutor Facilitators will oversee all aspects of the secondment.

The posts will provide practitioners with an opportunity to experience working in higher education in a prestigious and world leading university.

The secondees will have the opportunity to develop both personally and professionally during the secondment and to make informed choices on future career options in higher education and clinical practice.

**Informal enquiries can be made by contacting the Associate Lecturer/Tutor Scheme Facilitator or relevant Professional Head:**

Gareth Morgan  
Associate Lecturer/Tutor Scheme Facilitator
