Tuition fee policy

Introduction
Cardiff University is committed to a fair and transparent policy in respect of the fees and charges it expects students to pay. The University has an obligation to safeguard public funds and ensure that it delivers value for money to its customers. The Tuition Fee Policy forms part of the university’s Terms and Conditions and should be read in conjunction with them, together they provide a framework for the setting, payment, collection, and reconciliation of tuition fees.

Tuition fee rates apply for a full academic session. Fee levels are determined based on fee status and mode of attendance following receipt of a formal application for admission to the University. Fees are subject to annual revision and are due in full at the start of each academic year.

The payment of fees is the responsibility of the student and, in the event of a student’s sponsoring authority (if any) failing to make payment, the student will be held personally liable for payment.

Course fees include all compulsory elements needed for students to meet the minimum learning outcomes of the course. Some courses may incur optional additional costs (e.g., field trips, materials, professional body membership).

Fee Status Classification
Cardiff University uses UKCISA (UK Council for International Student Affairs) guidelines to determine fee status.

For details of categories and classification please see the UKCISA website.

Fee Status Assessment for Applicants
The final decision as to a student’s status for fees will be determined by Cardiff University based on individual information in accordance with The Education (Fees and Awards) (Wales) Regulations 2007 and The Higher Education (Qualifying Courses, Qualifying Persons and Supplementary Provision) (Wales) Regulations 2015, and any subsequent amendments.

Fee status is confirmed following receipt of a formal application for admission to the University which is successful (i.e., where an offer of a place to study is to be made) by the University’s Admissions Team. Each applicant’s fee status is considered on an individual basis by a member of the Admissions Team with relevant expertise.

Fee status is normally determined from information supplied in the application for admission. However, the University reserves the right to request the provision of additional information and original documentation where necessary. Failure to submit supporting documentation or information, when requested, will result in either the allocation of the higher rate of fee classification or a rejection decision. A minimum of 14 days will be allowed for documentation/information to be submitted.
All relevant information/documentation known/available at the time of application must be disclosed. Confirmation of fee status is detailed in the formal offer of admission. Applicants should allow a minimum of 10 working days for a decision on their assessment. Final assessment is normally made prior to enrolment, subject to the submission of appropriate documentation.

If an applicant achieves settled status or the relevant period of ordinary residence after the first day of the academic year (as outlined in the Education (Fees and Awards) (Wales) Regulations 2007) but before the start of the programme, the University will deem the first day of the programme to be the relevant date in the determination offer status.

Fee Status Assessments for Students
Once an applicant starts the enrolment process to become a student, an adjustment to fee status will only be applied should it become evident that an error had been made in the initial classification, or if adjustment is required under the regulations.

Fee Status Appeals
All applicants have the right to appeal a fee status if they disagree with their fee status classification and have reasonable grounds for doing so. Reasonable grounds are:

1. Additional information or evidence demonstrating the fee classification is incorrect is available that was not available at the time of the initial assessment; or
2. The applicant feels their assessment has not been treated in a fair or consistent manner, or in line with official regulations.

All appeals should be made in writing to the Head of Admissions within 28 days of receipt of a formal offer to admissions-advice@cardiff.ac.uk. Your full name and University Application number or UCAS Personal ID must be provided along with any documentation or evidence relevant to the appeal. You should also state under which category you are appealing (1. New information or 2. Incorrect assessment). If appealing under category 2 you should also state which UKCISA fee category you feel you meet and why.

The University will provide an initial response within 28 working days of a fee status assessment being received.

Appeal Panel
When a decision cannot be reached by Admissions or where a second appeal is submitted with reasonable grounds (as outlined above) a panel will review the case.

The appeal panel will consist of a minimum of three members of Cardiff University staff including a representative from Admissions, Finance and the Academic School or College. A minimum of two members of the panel will not have been involved in the original fee assessment.
Panel members will assess the fee status independently and will then meet to discuss their
findings. All appeals will be held in a timely manner and a timeline for a decision will be communicated to the applicant or authorised party acting on the applicant’s behalf when full evidence/information has been received from the applicant.

All decisions by the panel are final and there is no further right to appeal. The final decision will be communicated to the applicant in writing by the Head of Admissions (or member of staff acting on their behalf).

**Sponsored Students (not Student Finance funded)**

Students must provide proof of sponsorship to the Income Section (Finance Department). It is the responsibility of the student to inform their sponsor that tuition fees are to be paid 30 days from the date of invoice. All invoices can be viewed on the student University SIMS online account. In the event of sponsors not paying fees when due, the student becomes personally responsible for paying the full fee.

Where a student is in receipt of part-sponsorship for tuition fees, (unless the sponsor decrees otherwise), the sponsored part of the fee will be deducted from the total fee, and the student made liable for the balance. **Payment of the balance is to be made in line with the information noted above in ‘How to pay tuition fees.’**

**Late or non-payment of tuition fees and other monies**

At enrolment, students will receive confirmation of tuition fee payment dates, in accordance with the method of payment they chose. Students will also be advised of the importance of notifying the Income Section (Finance Department) if they have any individual circumstances that may be causing difficulty in making tuition fee payment by the required deadline. Students who wish to make an adjustment to their existing tuition fee payment dates should [complete the online form](#).

The Income Section (Tuition Fee Team) will contact students via their University email address, after the deadline for payment of either a tuition fee or any other monies owed has passed.

Students will be advised:
- the due date for payment has passed.
- when payment is required to avoid any further email contact or, in the case of tuition fee arrears, that they may be at risk of de-registration.
- prior to de-registration students will receive an email giving 7 days advance notice, which is sent to both their University and Home email addresses.

Students must urgently contact the Income Section through the Student Connect portal if they are experiencing any difficulty in making tuition fee or rental accommodation payments, or [Income@cardiff.ac.uk](mailto:Income@cardiff.ac.uk) for any other debt. The Income Section can review any individual circumstances provided and adjust payments where relevant. If a student breaches any special arrangements for payment that have been approved by the Income Section, they may be at risk of de-registration.

In the event a student is de-registered due to non-payment of tuition fees this information will be passed to Registry who will inform the relevant parties i.e., academic schools, libraries, and other administrative departments.

**Interruption of Study (IoS)**
All students who are granted permission to take an interruption of study by their school, will be charged tuition fees confirming their financial liability in the event they do not return to continue their studies as follows:

Details of liability pay point dates can be found at: https://intranet.cardiff.ac.uk/students/money/tuition-fees/withdrawal-and-tuition-fees

**On returning to study once the interruption of study IoS (Interruption of Study) period has ended** all Undergraduate and Postgraduate students other than those studying MBBCMedicine will be charged for the new academic year **based on the number of credits they will be studying.** Those studying MBBC Medicine will be charged based on the number of weeks of attendance as this is not a modular course, as recorded by Registry on the student SIMS record.

Please note, refunds will only be made to the original payee and bank account.
