Collaborative Workshop

Bringing academia & industry together to address critical issues in supply chain management & to share the insights of our 2-year Knowledge Transfer Partnership.

Theme: Supply Chain Digitalisation

How will 3D printing impact global supply chains? How can universities help organisations to prepare for the change?

15th March 2018

Hosted by the Panalpina Research Centre at Cardiff University Business School

Time:	Topic:
10:00	Introduction & welcome
10:10	Additive Manufacturing & Supply Chain Management
10:35	Industry Perspective - Additive Manufacturing
10:50	Workshop 1: The Impact of 3D Printing on Supply Chain Management
11:35	Software Challenges
11:50	Legal Challenges
12:05	Workshop 2: How to Overcome the Barriers to 3D Printing
12:50	Lunch Break
13:50	The Panalpina KTP on 3D Printing
14:05	Extensions of 3D Printing to the Circular Economy
14:20	Workshop 3: Identifying Collaborative Opportunities in 3D Printing
15:05	Workshop Synthesis
15:20	Next Steps
15:30	Close
