1. Programme Structure

The structure and content of the programme in relation to the aims, learning objectives and programme specification is appropriate. The programme fulfils the professional regulatory requirements required by the General Dental Council.

2. Academic Standards

The academic standards and the achievements of students are comparable with those in other UK higher education institutions of which I have experience.

3. The Assessment Process

The assessment process is appropriately designed and applied and measures student achievement rigorously and fairly against the intended learning outcomes of the programme. The marking criteria for the clinical case presentation is appropriate, however, in one section; communication skills and understanding, the descriptors provided for the good and excellent candidates are too similar and not discriminatory. I would suggest that these are revised.

4. Year-on-Year Comments

Previous comments have been acted upon appropriately.

5. Preparation / Induction Activity (for new External Examiners only)

N/A.

6. Noteworthy Practice and Enhancement

The standard of clinical work presented by the students particularly in the area of Conservative Dentistry is exceptional and the clinical tutors should be congratulated.

7. Appointment Overview (for retiring External Examiners only)

The examination process is well organised. Examination papers are sent for comments in a timely manner. The role of the external examiner is now one of quality assurance of the process and standard of the examination rather than of examination of the students.

8. Annual Report Checklist
