

Can you help us with cancer research?

No research or experience necessary

Taking part will involve:

- joining a public advisory group
- reading documents, telephone and video calls
- attending meetings with the research team and members of the public

Help us increase access to services that help people prepare for cancer treatment

We are looking for people from all backgrounds who can:

- give us advice on how we do the research
- reach out to others in the community

Interested? Get in touch with us at:
