1. Programme Structure

Good structure to programme with series of units which are work-based so students can study areas that are specific to their professional role. Aims and outcomes are written to facilitate good flexibility in the subject areas covered. The part-time structure of the course allows links of theory to practice (and vice versa) to be further related to their professional roles. This is a huge strength of the course.

2. Academic Standards

The standards are comparable with other HEIs. Course management is good and it appears all uni regulations are adhered to.

3. The Assessment Process

Assessments are relevant to to the individual units. The standard of marking is good with constructive feedback given. Good range of marks awarded. Marking appears fair and internal moderation is in place. I am given the opportunity to review the required number of scripts.

4. Year-on-Year Comments

Remains a 'fit for purpose' degree. Management and administration remains good.

5. Preparation / Induction Activity (for new External Examiners only)

N/A

6. Noteworthy Practice and Enhancement

- Flexibility to allow students to explore areas which are relevant to their clinical role
- Appropriate assessment of units
- As an External - good support from registry

7. Appointment Overview (for retiring External Examiners only)

I have enjoyed my time with Cardiff University. The relationship with registry, course and unit course leaders has been excellent. Once overcoming initial problems with the online assessment system where markers can comment on the students' scripts I found it to be a good tool, and improvement on the previous system. Exam boards were very fair and well conducted.
